WHAT GROWERS SAY

"Florikan has the most comprehensive and technologically advanced product line to meet all our criteria for what we expect from a fertilizer. We are particularly impressed with the 270 and 360 day 16-6-8 Florikan Blend. They consistently provide excellent results."

Richard Gallant

WHAT GROWERS SAY

"I use Florikan fertilizer because of the quality of feed and length it provides. I was using a competitor's product but had bad dumping problems. Florikan never dumps. I get the quality of even feeding, plants are uniform, consistent, and have excellent color. I can use Florikan over a broad spectrum of plants and soil mixes. Florikan is the only fertilizer you can top dress and get good quality plants equal to incorporation."
